

About Massey University

On Massey University Campus, Buses or private cars run there on a Boulevard. The Site of Massey University is very large, Moving to the classrooms was tough. Although there are a lot of buildings at Edogawa University, Massey University has more than that. It was like a maze even inside the school building. I felt the difference even in the cafeteria. Although in Japan we buy a meal ticket. At Massey University, We pick a

side dish on the spot at and, It was charged by grams. Potato was delicious and piping hot. I want to make a system like that also at Edogawa University. Facilities include a bank,

The Massey University Lecture Building

post office, food court, library, bookstore, etc. at the Massey University. There are more than

50 clubs. Then, there were all kinds of people at Massey University. So I thought New Zealand has a lot of international exchange. Morning tea is provided: there was a snack time from 10: 30 to 11:00. I ate the fruit snacks at this time. I was very surprised that snack time was provided at school because it is not the culture in Japan. Classes : After a 90-minute class from 9: 00 to 10:30, there is morning tea time of 30 minutes. Lunch is 60 minutes from 11:00 to 12:00. Course content was English study in the form of games in groups, I studied English conversation that can be used in my homestay. The English I learned in college was very helpful. And I wrote a diary in English every day. I ask my homestay family questions for

The Massey University Campus

homework. Although the homework and diary writing were hard, I had a chance to speak with my host family and use English on my own. It was a good experience for my future.
